Ideation Phase
Brainstorm & Idea Prioritization Template

Date	19 October 2026
Team ID	
Project Name	Health360: Clinical & Healthcare Risk Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	SELF	Analyze average blood pressure trends across different age demographics to identify hypertension patterns.	Clinical Risk Analysis	1
2	SELF	Visualize demographic patient distribution and fatigue frequency across age groups using pie and stacked bar charts.	Demographic Profiling	1
3	SELF	Correlate lifestyle habits (alcohol and smoking consumption) with	Lifestyle Factors	1

		chronic clinical health risks.		
4	SELF	Build a multi-dimensional risk heatmap comparing exercise levels against overall patient health risk index scores.	Predictive Risk Modeling	1

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/ Lo w)	Importance (High/Medium/ Lo w)	Priority	Selected (Yes/No)
1	Interactive Clinical Risk & Predictive Dashboard: Develop an end-to-end interactive dashboard and clinical story analyzing blood pressure variability, exercise tiers, and health risk scores.	High	High	High	Yes
2	Demographic & Symptom Profiling: Map patient age cohorts against fatigue indicators to uncover early disease onset in younger vs older cohorts.	High	Medium	Medium	No

3	Standalone Substance Abuse Tracker: Create an isolated reporting tool strictly focused on alcohol and smoking consumption frequencies.	Medium	Medium	Low	No
