DEMONSTRATION OF PROPOSED FEATURES

Date	19 October 2026
Team ID	
Project Name	Health360: Clinical and Healthcare Risk Analysis
Maximum Marks	1 Mark

Demonstration of Proposed Features

This document records the key features planned for Health360, a responsive healthcare risk and disease analytics dashboard. The feature status below reflects the website/dashboard design described for the project; confirm each item during your live demonstration. All displayed patient figures and clinical indicators are illustrative sample data, not real patient records or medical advice.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Healthcare Analytics Dashboard	Summary cards showing patient representation (5,000), average blood pressure, lifestyle indicators, and age segments.	Implemented	Yes*	Uses illustrative sample values; not clinical records.
2	Age-Group Filters	Filter patient indicators by age group to compare population segments.	Implemented	Yes*	Verify filter behaviour during live demo.
3	Clinical Indicator Visualization	Bar chart showing average systolic blood pressure across age groups.	Implemented	Yes*	Chart rendering may require internet access if using a chart CDN.
4	Lifestyle Risk Heatmap	Visual comparison of relative risk patterns by lifestyle factors such as alcohol, smoking, fatigue, and exercise.	Implemented	Yes*	Relative/sample indicator scores only.
5	Interactive Controls	Indicator selection, filter reset, and interactive dashboard exploration.	Implemented	Yes*	Test all controls in the published site before submission.
6	Responsive Layout & Print	Mobile/desktop-friendly layout and a print-dashboard option for report output.	Implemented	Yes*	Check print preview and different screen widths.

Feature Implementation Summary

Total Features Proposed	6
Total Features Implemented	6 (as described in the project dashboard)
Total Features Demonstrated	6* (confirm during live presentation)
Overall Implementation Rate	100% based on the listed feature statuses

*The “Demonstrated” entries are suggested based on the described dashboard. Before submission, mark a feature “No” or change its status if it is not working in your live website.
